Suffolk's Premier Small Shoot

Stowlangtoft Estate

The Season ahead...

The Catchpole family, along with our new head gamekeeper Michael Middleditch, are delighted to welcome you to the Stowlangtoft Estate Shoot for the 2011/12 season.

It is with great pleasure that we have appointed Michael as our gamekeeper this year. Michael, having acted as assistant keeper over the past fifteen years, is uniquely positioned to take the Stowlangtoft Estate Shoot forward. Importantly, Michael will be working closely with Robert Frost, who has kept for us during the past two years, to ensure a successful year for the estate.

Once again, we aim to present premium partridge and mixed partridge and pheasant days this year. With a focus on quality birds, family involvement and warm hospitality.

Enjoy your time on this beautiful estate and thank you for choosing to shoot with us.

Roger & John Catchpole.

The Stowlangtoft Grey Partridge Initiative

July 2011 marks the beginning of the Stowlangtoft Grey Partridge Initiative. Over the next five years we will undertake a programme of habitat enhancement and bird reintroductions, with the aim of developing a viable population of grey partridges on the Estate.

Over the past ten years we have worked tirelessly to create suitable habitats for wild birds, such as the grey partridge and golden plover, to thrive. However, due to the absence of greys from the immediate area, we have decided to undertake a schedule of grey partridge releases by fostering poults on to bantams and barren partridge pairs.

All birds will be ringed, and the survival and the breeding success of our population will be monitored. Perhaps, one day, we will have sufficient grey partridge on the Estate to allow shooting to recommence.

Dates for your Diary

- September 1st—Partridge Season Begins
- October 1st—Pheasant Season Begins
- October 7th—Estate Syndicate Begins

Prepare the Freezer for Game

Stowlangtoft Estate offers a choice of oven ready game or birds in the feather to all shoot guests.

We hope that by providing the opportunity to take home oven ready game, we will encourage our guests to eat more of our delicious game.

New for 2011

• Lugwhent Drive

During the past few months the Estate team has been working to enhance the habitat for our game birds. Specifically, this habitat creation included the formation of a new drive named Lugwhent. Lugwhent aims to produce challenging partridge shooting by driving birds North East from open arable land, and over Lugwhent wood, and across the line of guns. If the drive goes as planned, Lugwhent should be fantastic addition to our shoot!

• Stowlangtoft Hall Game Larder

By spring 2012, we hope to have completed the renovation of the original game larder at Stowlangtoft Hall. This game larder will provide high quality game storage for the estate for the future, as well as preserving a little piece of history..
